

**TOPIC:** PERSONAL PROTECTIVE EQUIPMENT

**PRESENTED BY:**

**DATE:**

**DURATION:**

## PURPOSE

Ensure employees understand the proper use, care, and importance of PPE to prevent workplace injuries.

## KEY POINTS

- Types of PPE used on site (e.g., gloves, safety glasses, hard hats, hearing protection).
- Optional PPE available (e.g., apron, face shield).
- Importance of PPE and how it protects against workplace hazards.
- Uniform as part of PPE and why it matters.
- Where to find hazard assessments that determine required PPE.

## COMMON HAZARDS

- Using the wrong PPE or not using PPE at all.
- Damaged or worn PPE that doesn't provide adequate protection.
- Improper storage leading to contamination or degradation of PPE.
- Delayed replacement of broken or missing PPE.

## SAFE PRACTICES & PROCEDURES

- Inspect PPE before each use for damage or wear.
- Store PPE properly to maintain its effectiveness.
- Follow hazard assessments to determine which PPE is required for each task.
- Report and replace any damaged or broken PPE immediately.
- Use optional PPE when additional protection is needed.
